RE: Three Year Projected Disturbance Acres and Map

Dear Mr. Jensen:

Attached are two copies of the next three years disturbance. We did a little tweaking with the pit boundaries and the revised projected disturbance for the next three years is summarized as:

<u>Year</u>	<u>Acres</u>
2005	36.6
2006	55.0
2007	47.6
Total	139.2

As you can see we over stripped in the last few months of this past year 2004 in anticipation for this years high cover overburden removal this spring. Otherwise the projected disturbance from year to year would be fairly consistent.

If you have any questions, please contact me at (435) 781-3348.

Sincerely,

John Spencer, P.E.  
Environmental / Senior Mining Engineer
